ABOUT

Our goal and passion at Woodville Furniture, is to create "feel good furniture" for every area of your home.

We all want many things in life, with the expectation that they will make us feel better. Feeling good is a free choice and brings clarity and inspiration in your life. Clarity and inspiration takes you to the right designs and good timing. Right designs and good timing take you to success in all areas of your life. It's a circle of satisfaction, joy, fun, happiness and love... and feeling good is an amazing driver for it. At WVF. Feel Good Furniture, it is our passion to create furniture for every area of your home, with many components and aspects that help you to reach your free choice of feeling good. Helping you to feel good at home and to carry that great feeling wherever you go is our goal.

WE ARE INSPIRED BY, AND WORK WITH, THE WORLD'S BEST DESIGNER

The best all-round designer is without a doubt the nature on our beautiful planet.

Furniture made from beautiful, natural, precious hard woods are of the highest quality and have a long life. We love natural wood so much and we go the extra mile, with pleasure, to let the beauty of the material speak for itself. As nature is timeless in its beauty we focus on timeless designs, with a maximum of good feeling and healthy aspects for you.

SUSTAINABILITY LEADS OUR EVERY DESIGN

PART 1 GABON

It is a matter of utmost importance to produce our furniture in harmony with nature. Our pioneering and very successful design, to start the manufacturing of our high-quality furniture in Gabon, was based on its abundant, self-sustaining forests and the quality and beauty of the wood in Gabon. Sustainability has many aspects in the woodworking industry. The most important is sustaining the forests on our beautiful planet. In a real sense, sustainability in the woodworking industry relates to the forests from which the wood comes.

For a forest to sustain itself, it is important to ensure that no more wood is felled than can be regrown naturally.

There is no better method to grow trees than an abundant and self-sustaining forest. In a self-sustaining forest, the conditions and resources are harmonious from both a local and a global aspect.

The world-renowned „wood Zentralblatt Germany“, in its detailed research, (Reference 92(141):2474) came to the conclusion:

In Gabon, the natural regeneration of Zebreli and Wenge Wood is abundant and self-sustaining. In 1 Hectare, a stunning amount of 2700 seedlings have been found. (Zebreli and Wenge are the precious hard woods we use to make furniture for you.)

FLOATING BED SPIRIT

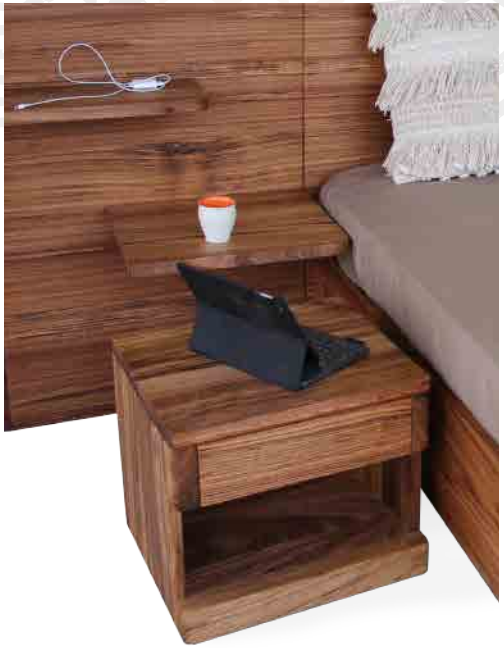
SLEEP YOUR SELF HEALTHY.

This Floating Bed Spirit definitely helps you to feel good and to float with a healthy sleep into a day full of inspiration.

What makes the Floating Bed Spirit a good feeling Bed? It is made with traditional wood connections and only high quality knock down fittings are used. The resilient craftsmanship of pure natural noble-hardwood combinations is refined with natural oils. The practical, yet stunning, design will enrich and complete any bedroom with the high quality Floating Bed Spirit. All that evokes a healthy sleep with good feelings.

A PERFECT SETTING, TO START A COSY AND BLISSFUL NIGHT.

If you like to read a book before sleeping or watch TV or videos, with a cup of tea and some cookies, this fixed shelfs over the movable bedside table will give you comfortable space around the bed, exactly where you want your things to be handy for you.



For everything else you need near you, there is movable side table with plenty of space at your disposal.

HIGH QUALITY, ARTISAN CRAFTS-MANSHIP AND STUNNING DESIGN

With beautiful and perfect rounded corners and grooving around the sides, this bed fits beautifully in every bedroom. The combination of design and the floating effect will lift your spirits whenever you enter your bedroom.

FLOATING BED

SPIRIT

BENEFICIAL ROOM CLIMATE TO FEEL GOOD AND SLEEP WELL.

This Spirit Bed Floating option is available in 2 noble-hardwood combinations: „Zebreli wood and Wenge wood." The shelves are in natural dark Wenge wood.

The rest of the Bed is crafted in Zebreli wood. The rich grain-structure of the Zebreli wood is a beautiful combination with the dark Wenge Wood. Open-pored solid wood, breaths, absorbing humidity and then releasing it when the air is dry. This will create a noticeable good feeling and healthy atmosphere in your bedroom. A good climatically stable atmosphere like this is important and beneficial for a healthy and good-feeling sleeping environment.

PURE SOLID WOOD, CONJURES UP POSITIVE FEELING.

Pure solid wood effects the quality of your living environment in a very beneficial way, more than almost any other material. To protect these qualities, we finish the wooden surfaces of our furniture with pure, natural oils. This makes the surfaces feel very smooth. It will look so good that, whenever you see it, you will feel like touching it. The natural and smoothing influence of solid hard woods conjures up positive feelings of relaxation and ease.

The smooth, silky feel of the open pore wooden surfaces also evokes a sense of appreciation and wellbeing in us and these are conditions for evoking vitality and joy in our lives.

FLOATING BED SPIRIT

MANY COMBINATIONS OF LASTING VALUE.

The Floating Bed Spirit comes with several headboard options. In this option, the sitting comfort on the bed is uplifting, due to the perfect incline of the headboard. Our passion is to create furniture that helps you to feel as good as you deserve to feel. Also, robust hardwoods ensure that our furniture has a long lifespan and retains its natural beauty over many years, gaining value over time.

In this type inclined headboard option, the shelves are fixed to the wall. You therefore get the same comfort as the fixed shelf over the bedside table and extended space. By moving the bedside table wherever it is most comfortable for you, you can have your things handy for the start of a blissful night.

SAIL

SAILING WITH BEST WIND CONDITIONS FROM 2000 TO 3000

Quick, convenient and easy it is to extend the SAIL extension table from 2000mm to 3000mm. With only 3 steps and in seconds fast, you can expand the table without moving the Base and thus create extra dining space for 4 guests. In the 3 step process of extension, you need not move the base of the table, this is very convenient when the table is placed on a rug and ideal when you combine the extension table with the SAIL bench, that then remains in a central position to the table.

STEP 1

- Opens the soft-close extension drawer

STEP 2

- Unfold the solid wooden table extension

STEP 3

- Slide the extension drawer towards the table top, the extension will adjust perfectly

SUSTAINABILITY LEADS OUR EVERY DESIGN

PART 2 „RESPONSIBLE USE OF RESOURCES

We make responsible use of our resources.

After the forest, the type of products and the way they are manufactured are important for sustainability.

All of our furniture is manufactured in superb standards. They are highly durable and last for many decades. A ease process of maintenance keeps with our natural oil keeps your Furnitures long-lasting beauty. The wood remains free of dioxins and retains its long-lasting features. It absorbs moisture and releases it again slowly, thereby ensuring a pleasant and healthy indoor climate. Our furniture is not thrown away after a short period of time, as it actually gains value.

We consciously fit our furniture with high-quality fittings of the latest technology in order to guarantee maximum convenience and lasting value.

An other important aspect of Sustainability

Being located near to the forest; this short transportation distance is also a remarkable point of sustainability and saves CO_2 admission.

Producing in our own factory, close to the forest also allows us to handle the entire chain of production ourselves. We transport the wood with our own trucks to our own sawmill, then we air dry the wood and finally dry them in our seasoning chambers, using the latest technology, before we start the high-quality manufacturing of the furniture.

Any wood that is not suitable for our high-quality furniture is used without wasting anything.

Wood sections that are not suitable to our high-quality standards, are converted into components and sold to manufacturers that have use of such components. The absolutely non-usable wood waste, like chips and end cuts , provide the energy for our wood-seasoning chambers.

We love Wood

That's why we care of preserving its natural characteristics and make furniture that lasts for generations without wasting any of this precious material and we love being committed to preserving the environment

MAINTENANCE GUIDELINES

OUR NATURAL OIL IS THE KEY TO RETAINING THE BEAUTY OF YOUR FURNITURE FOR DECADES

Easy care, cleaning and repair of WVF solid wood furniture.

It not only feels good and pleasing to touch them, but they also hold up well in daily use. The surfaces are simple to clean during daily usage. Small repairs and even traces from years of use can be removed: The oil for our furniture includes only natural ingredients.

Caring for solid wood

Polish with natural oil every 1–2 years, and the wooden surfaces will retain their beauty for a long time. Even dents or scratches can be mended easily: Sand them down, apply the oil, and you're done. Not only that, but the open-pore treatment allows the wood to preserve its wonderful properties. It has an antibacterial and anti-static effect, can absorb smells and helps regulate the humidity in the living space.

STATEMENT FROM THE MEMBERS OF MANAGEMENT & CONTACTS

My vision to make Woodville „Feel good Furniture“ a leading brand, with beautifully designed solid wood furniture and value for the money through pricing strategy, has taken us through many challenges. Today I appreciate every one of those challenges. These challenges were only the first step to improvement and development that has taken us to where we stand today. Now, I feel a bit of excitement along with any challenge we face, because I am confident that we will grow from it to the benefit of our customers and our team. I know and I even wish today that the challenges will continue because they are always the first step in our never ending development. Never ending development is what we stand for and that makes me feel really good.

SANJAY RANA - *Managing Director*

Having a good sense of the right timing, a clear line of communication with my team and constantly promoting a dynamic team spirit. These are the main factors that make me and our team perform and it also feels great when we move forward in a teams-spirit of excitement.
